
CMS Preliminary Phase 2
$r = t_{\mathrm{FEBd}} - (a_s t_{\mathrm{scope}} + b_s)$; before LOWESS correction
After linear clock alignment
Timing residual [ns]
Matched-event index
Subset 1
Subset 2
Subset 3
Residual distribution
Events / bin
Timing residual [ns]
All matched events
Gaussian core fit
σ = 0.066 ns
